Standards Information and Sales

The Standards Information Centre (SIC) of the Mauritius Standards Bureau (MSB) is the National Reference Library for standards and standards-type publications.

The Centre offers a free referral service for information on standards and standardization activities. The collection at the specialized library numbers around 100 000 standards, specifications, codes, test methods published by different internationally recognized Standards Development Organizations: International Organization for Standardization (ISO), International Electrotechnical Commission (IEC), British Standards Institution (BSI), ASTM International Standards and the Mauritian Standards, among others.

The Mauritius Standards Bureau as a member of the International Organization for Standardization (ISO) holds exclusive rights for the sales of ISO International Standards within the territory of Mauritius.

The SIC is also the local sales distributor for ASTM International Standards and British Standards which can be purchased in print format from the SIC. Other standards publications are ordered for resale upon request.

The SIC offers a Membership Scheme for interested parties willing to loan books and periodicals – terms and conditions apply. Members are allowed a 10% discount on the purchase of Mauritian Standards. The library maintains a 'profile' for each member and pertinent standards related information in their respective fields of interest is channeled to them.
